

AFTER GROW

THE PRIMORDIAL DAWN OF LIFE

After Grow draws inspiration from the primordial dawn of life on Earth, when the planet first awakened and simple chemistry gave way to vibrant, self-sustaining existence. In this season, we celebrate the elegant emergence of life's foundational threads— the subtle, intricate biomolecules that weave the story of growth, resilience, and transformation. These organic wonders, born from Earth's early conditions, embody the quiet beauty of beginnings and the unstoppable force of flourishing.

In SS27, this theme comes to life through a series of clothing inspired by the organic forces and delicate geometric structures of early biology, capturing the wonder of life's first bloom in wearable, artistic form.
